

# Office Ministry Update

From Administrator Heather Cordero

- I hold a lot of gratitude for the wonderful staff and congregation members I have the privilege of serving with at Redeemer!
- 2021 has been another year of pandemic changes, but in the midst of them, we've established regular rhythms for communication, including Redeemer's in-person and online services and events, as well as our weekly online registration for Sunday worship.
- I've helped coordinate a handful of first-time events in Redeemer's new building, including events in partnership with the Highwood Public Library, the COVID vaccination event with the Illinois Department of Public Health, and also the use of our space with community groups, such as a local Brownie troop.
- I've appreciated the opportunity to collaborate with the members of the Re-Gathering team in coming up with creative solutions and opportunities for ministry in the midst of the COVID 'curve-balls' that came our way in 2021.
